** The AvrefWeb system will 'time-out' after several hours of inactivity. This will require you to sign-in again reducing the number of available logins.

*** License Agreement:**

To prevent unauthorized access to the AvrefWeb system, your computer's Internet IP address will be recorded and monitored. Each subscription includes access for two (2) login ID's at the same physical location. It is important to note that the login ID is tied to the Internet IP address of the computer that you first use to access the AvrefWeb system. In effect, you are limited to access from two computers only. However, if you have a static IP address at your business, your login ID can be used at any of the computers on the network, but you cannot be logged in at more than one computer at any given time with the same login ID. You can use the same login ID on a second computer (i.e. your home computer), but you will need to contact RDS and request activation on this computer. If you do this, you will have used both of your login/computer licenses. Once you have logged into the system, a cookie will be placed on your computer. The cookie is used to verify that this particular computer was granted access to the system. This is useful if your IP address should happen change, as it will allow you to access the system without contacting RDS. If you are using a laptop computer, having a cookie set on the machine will allow you to utilize the computer from various locations when traveling. If you need to access the AvrefWeb system from more than two computers at your facility, you will need to purchase additional licenses. If you need access to the AvrefWeb system from additional locations, you will need to purchase an additional facility license for each one.

Early AvrefWeb subscription terminations are subject to proration and will incur an early termination fee of \$200.00.

ALL PAYMENTS VIA WIRE TRANSFER ARE SUBJECT TO AN ADDITIONAL \$20.00 FEE.

I am in agreement with the license terms specified above and authorize Resource Data Services, LLC to bill the above charges to the credit card shown below. Payment of all international duties and taxes is the responsibility of the purchaser. If any shipping charges, duties, or taxes are not collected at delivery and subsequently billed to Resource Data Services, I authorize Resource Data Services to bill said fees to the credit card indicated below.
